Telephone: 508-588-0414

Key Personnel: Walter Amory, P.E.
Ryan J. Trahan, P.E.

PROJECT DESCRIPTION

The purpose of our rate study was to assist the Water Department in establishing a rate structure that would generate revenue required to cover operating and maintenance expense, debt service payment and projected capital outlay during the period 2005 through 2008. In addition, the rate structure distributed revenue requirement on an equitable basis to Water Department customers. We completed the rate study for the Water Department in 2006.
