Telephone: 508-230-0850

Key Personnel: Ryan J. Trahan, P.E.

PROJECT DESCRIPTION

Amory Engineers completed a Water Audit for the Easton Water Division in 2008. The water audit and leak detection survey of the distribution system was part of the Easton Water Loss Prevention Grant Project. The goal of the water audit and leak detection survey was to identify and reduce unaccounted-for water loss within the distribution system to comply with Easton's Water Management Act (WMA) Permit requirements. As part of the project, the Town is implementing an in-home water conservation public outreach program. In addition, a water conservation seminar was conducted for water departments within the Canoe River sub-basin.
